

HAND-HELD METAL DETECTOR (HHMD)

SCANMASTER-BASIC

HAND-HELD METAL DETECTOR SCANMASTER – BASIC

TECHNICAL SPECIFICATIONS

- High sensitivity
- Simple and convenient to use, no adjustment is required
- The detection distance does not change when battery voltage drops down (9V- 7V).
- Low power consumption
- There is automatic and continues Low Battery indication
- With external rechargeable socket.
- Alarm: Audio and Visual Alarm Indications, Vibration Mode Alarm Indication
- Three LED indicator; Red for Alarm, Yellow for Low Battery, Green for Power On
- Complete Set with Holster, Charge Adapter and Wrist Strap packed in Individual Color Carton Box

Technical parameters:

Power	: 9V
Operation Frequency:	22 KHz
Operation Current	: <50 mA
Operation Voltage	: 9V – 7V
Dimensions	: 430 mm (l) *80 mm (w)*40 mm (d)
Color	: Black / Yellow
Weight	: Approx. 400 g
Operation Temperature	: -10°C to +50°C
Standards Met	: Conforms to CE

Detection Sensitivity:

64 Model Hand Gun 150 mm

Application:

Security Screening Checkpoint Applications

Complete Set with;

- 1 Unit HHMD Scanmaster-Basic
 - 1 Unit Charge Adapter
 - 1 Unit Holster
- Packed in Color Carton Box
(Battery Not Included)

Mustafa Erdem ORAN / Founder

MUSTAFA ERDEM ORAN GUVENLIK SISTEMLERI TICARETI is founded by Mr. Mustafa Erdem ORAN in March 2014.

We are actively operating as a Metal Detector Importer, Exporter and Product Development Body with Certified Service Centre Facilities. Our main focus is to manufacture some of the World's Finest Security Metal Detectors.

Hopefully, our initial Ultra High Performance Series Superior Sensitivity Spectrums WTMDs with Unique Features will be ready by the end of 2014.

After many years experience in the field and being a very new establishment, we believe that we need to own and control the primary technologies behind the products that we are trading at the earliest and focus our activities only in areas where we can make a significant contribution. We believe in saying YES to projects that are truly important and meaningful to us. We believe that Trust is something that is built in time and deep collaboration with our trading partners which may allow us to innovate in a way that others cannot. We have the self-honesty to admit when we are wrong.

We aim to become one of the leading companies of our main concerns in a couple of years.
